Creating Works of Art with
***Dichroic
Decra Bevels***

Adding Decra Bevels to a decorative panel has always made the panel look special, imparting true quality and authenticity to that traditional look. Now, North Western Lead have introduced genuine innovation to the bevel market: **Dichroic Decra Bevels**. You have to see the Dichroics for yourself to appreciate their beauty. From one angle, they are one colour. From another angle they are another colour. Their iridescence is new and different. Their effect is truly breath-taking. Include Dichroic Decra Bevels in your decorative glass, and you are really offering a work of art to your customers.

The range is extensive. You have Dichroic Glue Chip in red, blue and yellow. You have Dichroic Chinchilla in red, blue and yellow. With the Diamond Dichroic to marvel at also, North Western Lead have introduced a major new product to the decorative glass market.

The coating is fired into the glass, and, as you would expect from North Western Lead, it has been thoroughly tested, to ensure that it will last, and continue to look good for years.

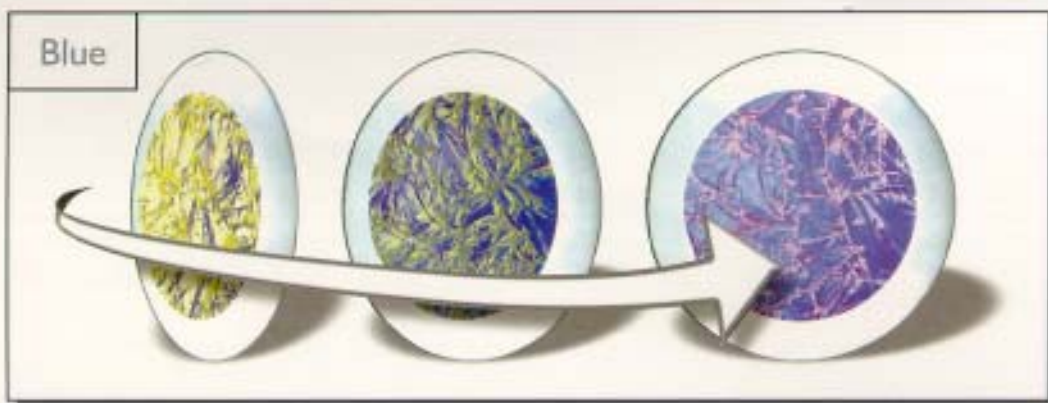

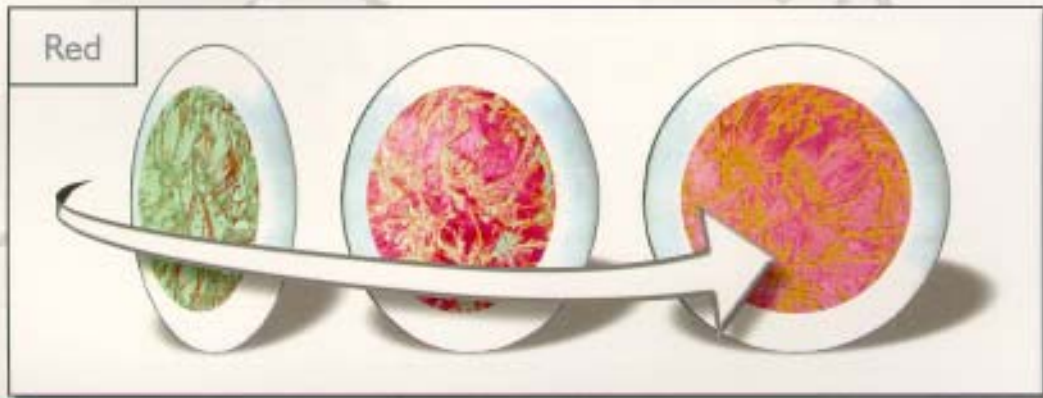

Now you have choice, real choice. At last you have something which is really new and completely different: Dichroic Decra Bevels, from North Western Lead...

...Always the leader!

Sparkling colours...

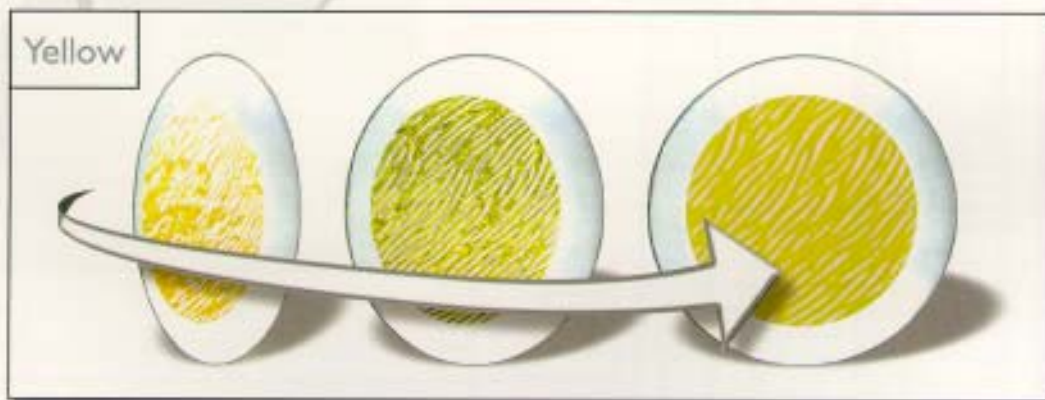

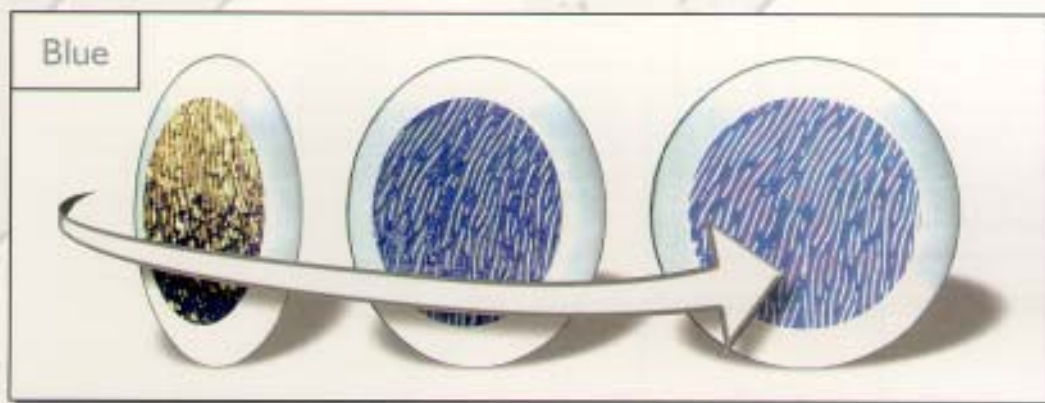

Glue Chip

Dichroic Decra Bevels in Glue Chip: not only do you get dichroicity, with the colour changing when viewed from different angles, you also get 3 different colours of Dichroic Glue Chip: Red, Blue and Yellow. See it to believe it!

...at every angle

Chinchilla

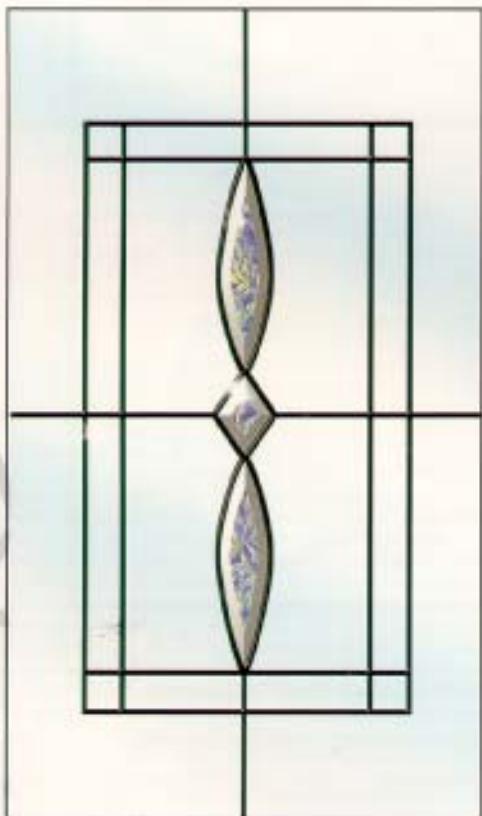

Dichroic Decra Bevels in Chinchilla: once more, the iridescence of the Dichroic coating is stunning. The way it appears to change colour is almost hypnotic. And Dichroic Chinchilla is also available in 3 colours: Red, Blue and Yellow.
